 **The Spectator** 1897 in recent years gian francesco malipiero has been recognised increasingly widely as one of the most original and strangely fascinating italian composers of the early 20th century he was the teacher of maderna and nono and was revered by among many others dallapiccola who even called him the most important musical personality that italy has had since the death of verdi he was also a key figure in the revival of the long neglected music of italy s great past and himself edited what remains the only virtually complete edition of the surviving compositions of monteverdi the present book not only provides the first monographic survey of malipiero s life times and music to appear in english but covers the subject more comprehensively than any previous publication in any language dr waterhouse draws on hitherto unpublished documents and with the help of numerous musical examples analyses the composer s works style and idiosyncratic personality
